

HARSH VERMA

B.Tech CSE (Artificial Intelligence & Machine Learning) | Software Developer | Full Stack Developer | UI/UX Designer

Email: harshvermaji001@gmail.com | Phone: 8445942001 | Location: Hapur (Panchsheel Nagar), Uttar Pradesh

GitHub: github.com/terror-harsh | LinkedIn: linkedin.com/in/harsh-verma-820325324

PROFESSIONAL SUMMARY

B.Tech Computer Science (AI/ML) student with hands-on experience in full-stack web development, AI-assisted application development, UI/UX design, and team leadership. Experienced in developing responsive and interactive web applications using React.js, JavaScript, Node.js, Express.js, MongoDB, Firebase, and modern AI development tools. Strong interest in software development, problem-solving, data structures, and technology-driven innovation.

EDUCATION

Bachelor of Technology – Computer Science & Engineering (AI/ML)
Dr. A.P.J. Abdul Kalam Technical University (AKTU) | 4th Year | 2023–2027
Class XII – Marwar Inter College | 2022
Class X – KMS Public Inter College | 2020

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript | Frontend: HTML, CSS, React.js, Tailwind CSS | Backend: Node.js, Express.js, | Database: MongoDB, Firebase / Firestore | Development: Full-Stack Web Development, REST APIs, Authentication | AI/ML: Generative AI, AI-Assisted Development, Computer Vision, Data Science, AI Model Optimization | Tools: Git, GitHub, Lovable, Google Workspace, MS Office | Other: Data Warehousing, Employee Engagement, UI/UX Design

SOFT SKILLS

Leadership & Team Management • Communication • Public Speaking • Event Management • Problem Solving • Critical Thinking • Teamwork • Collaboration • Time Management • Adaptability • Creative Thinking • Presentation Skills

WORK EXPERIENCE

Web Development – Talking Crooks | February 2026 – Present

- Developed responsive and user-friendly web applications using modern web technologies.
- Worked with HTML, CSS, JavaScript, Python, Node.js, and MongoDB.
- Implemented frontend and backend functionality for web-based applications.
- Worked with Firebase authentication and application integration.
- Participated in debugging, testing, deployment, and feature development.
- Gained practical exposure to Generative AI, AI-assisted development, AI model optimization, and data warehousing.
- Collaborated with team members to improve application functionality and user experience.

PROJECTS

Campus OS – Smart Campus Management Platform | 2026

All-in-one smart campus platform integrating students, faculty, clubs, events, attendance, academics, communication, and campus activities. Features include role-based dashboards, event and club management, attendance tracking, announcements, task management, student profiles, and real-time campus updates.

SDHT – Street Dog Health Twin

AI-assisted digital platform for street-dog health profiles covering symptoms, injuries, vaccination/treatment history, photographs, location, and observations. Includes role-based access and workflows connecting volunteers, NGOs, and veterinary professionals.

Attendance Management System – Cloy Infra Pvt. Ltd.

Web-based attendance application with admin and employee workflows. Worked with React.js, Node.js, Express.js, and MongoDB, including authentication, dashboards, attendance tracking, leave management, and reports.

Mood Mate – Healthcare Application | Hack Genesis – Christ University

Healthcare-focused application with an interactive and user-friendly experience; contributed to application design, implementation, and feature development.

PROBLEM SOLVING & DATA STRUCTURES

Strong foundation in Data Structures and Algorithms with practical coding experience in Java and Python. Areas include Arrays, Strings, Linked Lists, Stacks, Queues, Trees, Graphs, Hashing, Heaps, Dynamic Programming, Sorting, Searching, Recursion, and Greedy Algorithms. Regularly practices coding and problem-solving through programming challenges, projects, hackathons, and innovation competitions.

LEADERSHIP & EXPERIENCE

Head of Volunteers – TechFusion / HIET

- Coordinated student volunteers for technical events, hackathons, research-paper activities, and conferences.
- Managed volunteer allocation, attendance, communication, and event responsibilities.
- Coordinated with students and team members for smooth event execution.

Computer Teacher / Technical Support – British Institute

- Conducted computer-related learning and practice sessions and assisted students with technical doubts.
- Supported computer lab activities, student interaction, and institute-level promotional activities.

ACHIEVEMENTS

• Ideathon Winner • Innovation Ignite – 1st Prize • Hackathon Runner-Up • Academic Excellence Award • Eureka Virtual Round – Cleared & Advanced to Final Stage at SGU

CERTIFICATION / COMPETITION EXPERIENCE

Ideathon – Inmantec Institution | 2026

Skills and experience developed: Communication, HTML/CSS, Python, MongoDB, JavaScript, Teamwork, and Problem Solving.
